

<b>Skill Area(s):</b> Nonverbal Language Feelings/Emotions
--

# Face Bingo

**Level:** beginner, intermediate, advanced

**Goal:** to explore and learn about feelings and emotions

**Materials needed:** Bingo Face page and Expressions pages

## **Activity:**

- Give each student a copy of each page
- Use the Facial Expressions page as a foundation for discussing each feeling
- Cut apart the 7 face cards and 2 free cards and glue them on the Bingo Face page- Students should glue their faces in different squares from their neighbor. (be sure you have your own set of the 7 face cards cut apart)
- Place your face cards in a container and draw one at a time.
- Students cover up the feeling drawn on their cards.
- Vary the game by having the students give an example of when they felt each card is drawn.

## **Follow up suggestions:**

- Instead of stating the expression on the card try these options:
  - State a situation you might be in to feel/look this way. Ex: I lost my bike.
  - Make the expression and the students guess.
  - Describe the facial features such as; the eyes, eyebrows, mouth
